Request for Statements of Qualifications (RSQ)

Purpose: The Lake County Board of County Commissioners is soliciting statements of qualifications and letters of interest from firms qualified to provide engineering services for fuel remediation at the Astatula Refueling Facility.

SECTION 1.0 – SCOPE OF WORK

1.1 Definitions:

- A. The term “Request for Statements of Qualifications (RSQ)” means a formal solicitation inviting statements of qualifications.
- B. The term “response” means the information submitted by the respondent in response to this RSQ.
- C. The term “respondent” means the person, firm, or corporation who submits a response.
- D. The term “County” means Lake County, Florida.
- E. The term “Board of County Commissioners” or “BCC” means the governing Board of Lake County, Florida.
- F. The term “contractor” means a respondent awarded a contract from this solicitation.
- G. The terms “you” and “your” means the same as the term “respondent” above.

1.2 Procurement Rules

- A. IMPORTANT NOTICE TO POTENTIAL RESPONDENTS: Receipt of this document does not indicate that the Office of Procurement Services has pre-determined your company's qualifications to receive a contract award. Such determination will be made after the opening and will be based on our evaluation of your qualifications package compared to the specific requirements and qualifications contained in this document.
- B. The County has established for purposes of this (RSQ) that the words “shall”, “must”, or “will” are equivalent in this RSQ and indicate a mandatory requirement or condition, the material deviation from which shall not be waived by the County. A deviation is material if, in the County’s sole discretion, the deficient response is not in substantial accord with this RSQ’s mandatory conditions requirements.
- C. The words “should” or “may” are equivalent in this RSQ and indicate very desirable conditions, or requirements but are permissive in nature. Deviation from, or omission of, such a desirable condition or requirement will not in and of itself cause automatic rejection of a qualifications package, but may result in being considered as not in the best interest of the County.
- D. To be considered for an award, the Respondent must agree to abide by each mandatory requirement included in this RSQ.

1.3 Background Information:

During August of 1997, a routine, semiannual sampling event of monitoring wells at the Astatula Landfill, located on Route 561 in south Tavares, indicated concentrations of benzene, toluene, methylbenzene and xylenes (BTEX) that exceeded the limits established by the Florida Department of Environmental Protection (FDEP). Further sampling events, during December of 1997 and February of 1998, confirmed the presence of BTEX in concentrations that exceeded the established limits.

In response to the exceedances, the Lake County Water Resource Management Division (WRM), now the Environmental Compliance & Enforcement Division, (EC&E) prepared a Preliminary Contamination Assessment Plan (PCAP) and during May of 1998, submitted it to the FDEP Central District Solid Waste Program. In the same month, a consultant, Hartman and Associates, was authorized by the EC&E Division to proceed with testing in a preliminary attempt to determine the source of the contamination. The result of this testing indicated that the Astatula Fueling Facility, adjacent to the landfill, not the landfill itself, was more likely the source of the contamination.

In response to this petroleum contamination issue, the County applied for and in February of 1999, was accepted into the state Petroleum Cleanup Participation Program (PCPP). The PCPP provides for a 75% state and 25% owner cost sharing program between the FDEP (state) and the entity owning the contaminated site, up to a maximum total cost of \$400,000.

Since the County's acceptance into the PCPP, the following activities have been accomplished.

- Hartman & Associates, Inc. (HAI) was chosen as the designated contractor as required by the PCPP;
- Several monitoring wells have been installed and sampled to verify the horizontal and vertical extent of the contamination;
- Some free product has been removed via a free product remedial system placed in the fueling facility;
- Several rounds of Assessment Reports (LCAR, TSAR, and SSAR) have been submitted to the FDEP; and
- In April 2006, Shaw Environmental, Inc. was chosen as the new designated contractor as required by the PCPP.

The last item that will include PCPP funding will be the Installation and testing of another assessment well to determine the vertical depth of the contamination.

With the completion of the above activities, all PCPP funding will be expended and all future expenditures related to this remediation project will be the responsibility of the County. Therefore, the County will select a firm, utilizing the Consultants Competitive Negotiation Act per Florida Statute 287.055, to provide the engineering services required to complete the fuel remediation at the Astatula Fueling Facility.

1.4 Scope of Work:

Provide engineering services for fuel remediation at the Astatula Refueling Facility. The following tasks are anticipated:

1. Complete an Air Sparge/Vacuum Extraction Pilot Test. Based on past evaluation of several remediation technologies, the County believes that AS/VE is the most cost effective remedial strategy for the site cleanup goals. However, following its review of all the information, should the Contractor conclude, and the County agree that an alternative remedial approach should be used; an appropriate pilot test will be performed. In the event that AS/VE is chosen as the preferred remedial technology, the pilot test will be used to evaluate the most effective placement of AS/VE well points for use as a barrier to prevent offsite migration of dissolved petroleum hydrocarbons as well as other parameters for the preparation of the RAP. Based on the most recent groundwater analytical results, the petroleum contaminant impacts appear to be limited to the intermediate and deep zones down-gradient of the source area. Therefore, Lake County wishes to have an appropriate remedial methodology pilot test performed in each of these two zones.
2. Completion of a Remedial Action Plan (RAP) based on the findings of the AS/VE Pilot test, or agreed upon remedial method, that will be submitted to the FDEP for approval. Prepare a RAP for the subject site in accordance with FDEP Chapter 62-770, FAC, FDEP guidance documents, and industry standards. The RAP will: include a summary of the latest assessment results; define the area of active remediation; present drawings depicting the remedial system layout; outline the basis of design; operation schedule; and engineering calculations supporting the design layout. The RAP will be signed and sealed by a Florida registered professional engineer in accordance with Chapter 471, F.S.
3. In conjunction with the Lake County Office of Procurement, develop design documents for the construction of the clean-up system as presented in the approved RAP as well as bidding assistance during the RFP process. Following FDEP approval of the RAP, the contractor will prepare the technical portion of the construction bid documents. Bid items will be organized by: field services; drilling; equipment purchase; material purchase; and treatment system operational testing so that the responding bidders can be evaluated on a comparative basis. The Contractor will work closely with Lake County's procurement professionals to combine the technical bid specifications with the administrative and contractual portions of the bid documents. The Contractor will also attend and represent the County in the response to technical question and presentation of the remedial action program objective during pre-bid meeting(s). Upon bid receipt, the Contractor will evaluate each bidder's submittal including: technical qualifications; means and methods; team subcontractors; and equipment selection for compliance to the RAP. Each bidder will be ranked using evaluation criteria of approach, schedule and cost. Ranking and evaluation information will be provided to Lake County for use in its selection of the remedial action construction contractor.
4. Provide construction supervision of remedial system as addressed in the approved RAP. Once a remedial action construction contractor is selected, the Contractor will manage the onsite construction activities to assure compliance with the RAP. The construction supervision will consist of:
 - Construction schedule development and management
 - Permit compliance and review
 - Site safety
 - RAP objective explanation and compliance QA

- Site reporting, including daily notes and photo logs

The Contractor will coordinate a “daily objective meeting” to: assure buy-in on the tasks to be completed; present safety issues; and review the schedule. Change in scope items, if any, will be negotiated and if considered appropriate by the Contractor, presented to Lake County for formal approval.

1.5 Evaluation and Selection Process

Florida Statute 287.055 will be followed to secure the required firm. The Contracting Officer listed on the first page will be responsible for the selection process and will be the sole point of contact for all Respondents. In addition to the materials provided in the written responses to this RSQ, the County may utilize site visits or may request additional material, information, presentations or references from the Respondent(s) submitting qualifications packages.

1.6 Key Contractor Personnel

In submitting a qualifications package, the Respondent is representing that each person listed or referenced in the qualifications package shall be available to perform the services described for the County, barring illness, accident, or other unforeseeable events of a similar nature in which case the Respondent must be able to promptly provide a qualified replacement. In the event the Respondent wishes to substitute personnel, the Respondent shall propose a person with equal or higher qualifications and each replacement person is subject to prior written County approval. In the event the requested substitute person is not satisfactory to the County and the matter cannot be resolved to the satisfaction of the County, the County reserves the right to cancel the contract for cause.

1.7 Negotiation:

The County reserves the right to negotiate any and all elements of this response.

1.8 Award Of Response:

The County reserves the right to reject any or all responses, to waive any minor informality or irregularity in any response, and to make award to the response deemed to be most advantageous to the County.

1.9 Time Limit To Submit Required Deliverables:

Within ten (10) calendar days after County notification to enter into contract, any successful respondent must furnish all deliverables required after award but prior to contracting. If any successful respondent fails to furnish the required deliverables within the required time frame, award to that respondent may be withdrawn and award made to the next highest rated respondent.

1.10 Prohibition Against Contingent Fees:

Any contract entered into as a result of this request for response shall contain the following statement.

“I, as an authorized agent of *[type firm name]* warrant that *[type firm name]* has not employed or retained any company or person, other than a bona fide employee working solely for *[type firm name]* to solicit or secure this agreement and that *[type firm name]* has not paid

or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for *[type firm name]* any fee, commission, percentage, gift, or other consideration contingent upon or resulting from the award or making of this agreement.”

1.11 Truth In Negotiation Certificate:

For each contract that exceeds one-hundred-fifty-thousand dollars (\$150,000.00) any organization awarded a contract must execute a truth-in-negotiation certificate stating that the wage rates and other factual unit costs are accurate, complete, and current, at the time of contracting. Any contract requiring this certificate shall contain a provision that the original contract price and any additions shall be adjusted to exclude any significant sums by which the County determines the contract price was increased due to inaccurate, incomplete, or non-current wage rates and other factual unit costs. All such contract adjustments shall be made within one (1) year following the end of the contract.

1.12 Collusive Responses:

The respondent certifies, by submission of a response, that their response is made without any previous understanding, agreement or connection with any person, firm or corporation making a response for the same service with prior knowledge of competitive prices, and is in all respects fair, without outside control, collusion, fraud or otherwise illegal action. Any evidence of collusion among respondents and prospective respondents acting to illegally restrain freedom of competition by agreement to offer a fixed price, or otherwise, will render the responses of such responders void.

1.13 Conflict Of Interest:

- A. If any officer, director, or agent of your organization is also an employee of the Lake County Board of County Commissioners, then you shall clearly identify in your response the name of the individual(s) and the position he or she holds in your organization. Further, you shall disclose the name(s) of any County employee(s) who owns, directly or indirectly, any interest in your organization or any of its branches. This does not include stock in a publicly traded organization unless the individual holds more than a ten- percent (10%) stake. You shall complete and have notarized a Conflict of Interest Form (Form A-1) and include it in your qualifications package.
- B. If there is a conflict of interest as defined above and by Florida Statutes, Chapter 112, Part III, Code of Ethics for Public Officers and Employees, then the respondent cannot be considered for award.
